† George Hemmings statistics are taken from match reports and may therefore be incomplete.

‡ Whilst no official record exists, sufficient matches were reported in the press to make an assumption.

* From a report on the Club Dinner of 1925 it is known that separate Prizes were awarded to the weekend and Thursday XIs, the above list shows winners of the weekend averages.

‡ Ernest Elliot played in an era in which official club statistics are patchy at best. Elliott's career pre-1922 was vastly under-reported and the period 1927-1936 was virtually non-existent. His actual stats would have been much better than this.

‡ No official averages exist, however, most games were reported in the press and the gap between first and second leaves little doubt as to the winner.

* From a report on the Club Dinner of 1925 it is known that separate Prizes were awarded to the weekend and Thursday XIs, which would explain the low number of wickets required to win the Bowling Prize at this time (it is known that in 1926 the qualification was 20 overs). The weekend XI winners are seen here. The Thursday XI Bowling Prize was won by Alfred Fuller who took 42 wickets at an average of 5.88.

** At the Club Dinner it was announced that the best average belonged to Frederick J Taylor with figures of 99.0 - 33 - 178 - 39 - 4.56. It may therefore have been the case that as with 1925 separate prizes were awarded for weekend and Thursday XIs.

Also:	runs	Dismissals	
Eric Simson	6,230	337 ct / 192 st	1945-1973
Mick Debenham	4,952	788 ct / 271 st	1977-2010

† Ernest Elliot played in an era in which club statistics were patchy at best. Elliott's career pre-1922 was vastly under-reported and the period 1927-1936 virtually non-existent. His actual stats would have been much better than this.
